Class name : Bathing Beauties

Description: What could be better to remind you of our beach retreat than a beach themed quilt? Maybe you want to recreate a quilt based on your favorite bathing suits. The blocks are not difficult to make, but I will add several options that are not part of the original pattern. For the sample quilt, I had several of my friends pick out their bathing suit print, one piece or two, and their skin tone print. Now I have a fun quilt that represents my best friends.
